

## SECOND TASK

Create a file in /tmp named myfile.txt give following user appropriate permissions

- > peter – Full access
- > neil – Full access
- > tony – read execute
- > steve – read write
- > banner – read

```
$ sudo useradd peter
$ sudo passwd peter
$ sudo useradd neil
$ sudo passwd neil
$ sudo useradd tony
$ sudo passwd tony
$ sudo useradd steve
$ sudo passwd steve
$ sudo useradd banner
$ sudo passwd banner
$ sudo setfacl -m u:banner:r /tmp/myfile.txt
$ sudo getfacl /tmp/myfile.txt
```

getfacl: Removing leading '/' from absolute path names

```
# file: tmp/myfile.txt
# owner: root
# group: root
user::rw-
user:peter:rwx
user:neil:rwx
user:tony:rw-
user:steve:rw-
user:banner:r--
group::r--
mask::rwx
other::r--
```
